EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Isaac Angres on November 10, 2004.

The application has been amended as follows:

Claim 1 (currently amended) A method of expressing PCA (protein <u>fragment</u> complementation assays) interacting protein partners in plant material comprising:

- (A) transforming said plant material with:
- (1) a first <u>PCA interacting protein</u> partner construct coding for a first fusion product comprising:
 - (a) a first fragment of a dihydrofolate reductase enzyme whose

 fragments can exhibit which fragment associates with a second fragment

 of said dihydrofolate reductase enzyme to produce a detectable enzymatic

 activity when associated and
 - (b) a first protein-protein interacting domain; and
- (2) a second <u>PCA interacting protein</u> partner construct coding for a second fusion product comprising:
 - (a) a second fragment of said dihydrofolate reductase enzyme and

Application/Control Number: 09/851,084

Art Unit: 1638

Page 3

(b) a second protein-protein interacting domain that can bind (1)(b) said

first protein-protein interacting domain;

(B) culturing said material under conditions allowing expression of said PCA interacting

protein partners, and allowing interaction of said first protein-protein interacting domain with

said second protein-protein interacting domain;

(C) directly or indirectly testing for reconstitution of said enzymatic activity when said

dihydrofolate reductase enzyme fragments are associated.

Remarks

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Cynthia Collins whose telephone number is (571) 272-0794. The

examiner can normally be reached on Monday-Friday 8:45 AM -5:15 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Amy Nelson can be reached on (571) 272-0804. The fax phone number for the

organization where this application or proceeding is assigned is 703-872-9306.

Application Information Retrieval (PAIR) system. Status information for published applications

Information regarding the status of an application may be obtained from the Patent

may be obtained from either Private PAIR or Public PAIR. Status information for unpublished

applications is available through Private PAIR only. For more information about the PAIR

system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR

system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
